Allegorius' of Sevastopol and Rara Avis' icons are the sort of artworks everyone dreams about. As for me, it has been such an honor to be part of it.

EPIPHANY

...And from The Highest, wooden boxes came down,
According to Measure all of them in tension stringed,
No performer their strings has ever plucked,
And all of them by Mastery Bow have mysteriously sounded.
Though variously shaped, all of them in Harmony chained,
Fatalistically, predictably they sounded.
